NO. 27

## TO THE ELECTORS OF CORONATION CONSTITUENCY

Ladies and Gentlemen: I had hoped to personally visit every elector in this Riding, but on account of the Government bringing on the election on such a short notice, it will not be possible and I must take this method of asking your support on June 7th at the Polls.

I had the privilege of contesting this Riding in the last election and was only defeated after a ten days campaign by about forty votes and I beg to tender you my sincere thanks for your support at that time.

I have been a farmer and a rancher in the Province of Alberta for about 20 years and know the difficulties and needs of those engaged in agricultural work and I pledge myself to work for and support any legislation that will benefit the farmer. As one farmer to another I ask you for your help and vote.

I believe in a strong and progressive road policy. The roads in this Riding need much attention owing to the Government's failure to provide for road improvements. The Government spends millions on public buildings in the Cities, thousands for travelling expenses and only hundreds for roads for the farmers of this Province. It is very fine for Sifton to travel to London every little while, but is the farmer not entitled to travel to his nearest town over a good road?

There is scarcely need to point out to you the inefficiency of the Government. The absolute lack of economy and the waste of the public money, especially in the last two years. We need to husband our resources for the reconstruction period after the war. Support the party pledged to give efficient and economic administration of the affairs of this Province, and if their pledges are not fulfilled, they will lose my support. It is high time for a change in Alberta.

Ladies, you now rightly have the franchise, and I have every confidence that you will use your power to purify politics, and will support the party that will give the Province honest and businesslike administration. The present Government have clearly demonstrated that they cannot do so. The Government takes credit for giving you the Suffrage Bill, but let me point out to you that it was the Women's Organizations which forced their hand and obliged the Government to pass this Bill.

The Government should be defeated for bringing on this election, which will cost the people about one half a million dollars, during this year and before the expiration of their term of office, while at the same time the people are being asked to contribute to the Patriotic Fund and Red Cross. What explanation of such a course can the Government Candidate make. They are afraid of the soldiers' vote.

Ladies and Gentlemen if I am honored by being elected to represent you in the next Legislature, I will serve you to the best of my ability.

Yours Truly  
W. W. WILSON

## Note and Comment

At the recent Teachers' Convention, Dr. Suzzalo, President of Washington University, gave a very interesting address on "New Ideas in Education."

He discussed the essentials of a teacher's success as two superior possessions—scholarship and character, and two superior forms of presentation—pedagogic method and personality. To be a scholar and to have a character does not either separately or together assure the good teacher. True scholarship is living possession of truths related to present, physical and spiritual, not forms that are merely ancient, narrow and unrelated to life. Pedagogy is such an arrangement of knowledge and its form of presentation that takes into account the gap between the mind of the teacher and those taught.

Every man has two obligations. Socially he must be a good human being, a virtuous citizen, and a good provider for his family. The burdens and

obligations of the common law, are burdens no man can shove on to the shoulder of his neighbour, and liberal education is the kind which trains us for the everyday life, a training in those virtues and qualities of mind which gives the power of appreciation of fellowship, of co-operation, and of active respect for common ideals and laws. Vocational education gives us the power to appreciate—and a man's appreciative power is far greater than his creative power. These two types of education are not competitive, each is essential to the other. But not only forcefulness in life, we must have winsomeness, and that stamp of optimism which gives men faith in their own dreams and in the human race.

American coal operators have agreed to supply the government with coal, at the pit's mouth, for \$2.75 a ton. If they can do that without loss, it is about time they made a good reduction in price to the consumer in general.

Out of the inky storm clouds he comes, the arch-enemy of all good farmers. There is nothing you can do to stop him from reaping his destructive harvest. Though you cannot prevent such damage you can protect yourself against money loss by a

110-6th Ave., W., Odd Fellows' Bldg., Calgary, Alta.

One of the finest Cavalry Units in the Dominion of Canada is the 34th Fort Garry Horse, with Headquarters at Winnipeg, from which Regiment large numbers of men have been sent overseas, many of whom are now doing grand work as cavalry in the present advance that is taking place in France.

A call has come for a large number of Cavalrymen to be supplied by the Fort Garry Horse and this will give those who desire to join and ride a chance to go overseas at an early date, if they wish.

It is not necessary for the recruit to be able to ride, as on joining the Service Squadron, 34th Fort Garry Horse, a well-trained horse is allotted to him and he is taught riding by some of the best experts in Western Canada; and it is well known fact that the men of this Squadron have such a neat and dressy appearance as to command the attention of the citizens of Winnipeg and other places where they are seen.

Should any of the men of this district desire to become identified with this Squadron, the officer commanding, Major F. W. Stonham, whose headquarters are Service Squadron, 34th Fort Garry Horse, Tuxedo Park, Winnipeg, will be glad to hear from them by letter or wire, and transportation will

## New Homestead Map

A new addition of the Northern Alberta Homestead Map—a most useful publication, both from the standpoint of the settler and the business man—has just been issued by the Natural Resources Intelligence Branch of the Department of the Interior, Ottawa.

While the primary object of this map may be said to have been to afford reliable information to the prospective settler as to land open for location, it is also designed to assist the general public which in many instances supply the 'sinews of war' for the opening up of a country.

The color scheme adopted in former editions of the map has been simplified in this tenth edition. The land has been divided into two main classes.

The first of these represents that which has been already patented and the second shows that which—while entered for—has not yet been patented. In addition to these divisions the various colors indicate forest reserves, Dominion parks, timber berths, grazing leases, Dominion Land Offices, and coal areas. The areas uncolored and shown as surveyed are available for settlement.

Another very important feature shown is the precise location of the railroads—those great arteries of trade—while other topographical features such as the position of lakes and rivers are also indicated.

As the great world war progresses toward its conclusion, an ever-increasing stream of settlers will undoubtedly flow in the direction of Northern Alberta. To such persons, as well as to the commercial community already referred to, this map will effect a useful purpose.

Application to the Superintendent of the Natural Resources Intelligence Branch of the Department of Interior, Ottawa, will secure a copy, free of charge.

## German Diplomacy

Has Been Successful in Making Enemies in All Nations

What is the next triumph reserved for German diplomacy? What field is there left for the exercise of the Wilhelmstrasse's great gifts of finesse? It has now been crowned with repeated successes until there is no question in the world in which Germany is not surrounded with a drawn sword. The day German diplomacy has arrayed eleven countries against Germany, a record, it is believed, that has never been surpassed by the diplomats of any nation. After that terrible United States gave them a painful blow, they are equal, too, to any job that can be given them. They haven't much room to work in, only South America and China, and they already have induced China to break off relations with South America, by reason of its isolation, may be a harder job, but the German diplomats doubtless are working on it. If they are baffled there and the South American countries remain in remaining friendly to Germany, or even in a state of hostile neutrality toward her, it will be the first real setback German diplomacy has encountered in a triumphant course now extending nearly three years.—Kansas City Star.

## Britons Study Languages

War Has Pointed the Wisdom of Knowing Foreign Tongues

When King George opened a school for the study of Oriental languages he placed official stamp of approval on the movement, and it is evident that since the war has been gaining rapid headway in this country—the study of foreign languages. The school opened by the King is the first of its kind in the British Empire, which counts 320 million citizens speaking Oriental languages.

One of the lessons taught in this country by the war has been the need for a wider knowledge of foreign languages. The British people have learned through the war that the average German knew more languages than the average Briton.

"The trouble with my boy Josh is that he's always ahead of the times," said Farmer Cornfossel. "What has he done with his town to see about a position. He found a strike in progress and joined the strike before he got the job."

## Their Intimate Concern

The World Is One and Its Best Interests the Concern of All

Thus questions of foreign policy which have been hitherto utterly outside the ken of the Dominion peoples are now their intimate concern. The great European problems which fail to be settled by the verdict of war—the future integrity of Belgium, the fate of Poland, the settlement of the Balkans, and so on—these are equally difficult and important—are henceforth problems for Canada and New Zealand and the other Dominions as well as for Great Britain. The fancied remoteness of the Dominion peoples from the dilemmas of European diplomacy is at an end. The war has shown it to be a delusion of peace without real security. The world is one, and no part of it can disclaim concern with any other part. The war cabinet is at once the result of this truth and its revelation to the peoples of the Empire.—London Times.

## She is Always Ready To Tell Reason Why

SHE IS RECOMMENDING DODD'S KIDNEY PILLS

Miss E. Demers States They Cured Her of Sick Headache and Rheumatism From Which She Suffered for Six Months

Hull, Que. (Special)—Cured of chronic indigestion, sick headache and rheumatism, from which she had suffered for six months, Miss E. Demers of 109 Maisonneuve St. here, gives all the credit for her cure to Dodd's Kidney Pills. She is recommending them to all her friends who suffer from kidney troubles of any kind.

"I am always ready to tell what Dodd's Kidney Pills did for me," says Miss Demers. "I am never without them in the house. My friends come to me for advice, and I tell them to take Dodd's Kidney Pills. She is recommending them to all her friends who suffer from kidney troubles of any kind.

"When my father saw how much good Dodd's Kidney Pills had done me he began to take them for kidney trouble. He is better now."

Dodd's Kidney Pills make healthy kidneys. Healthy kidneys strain all the impurities, all the poison, out of the blood. They are the greatest of all tonics.

Harry Launder's voice is clearly one of the assets of the Empire. He has just invested another \$40,000 in War Loan, bringing his total holding up to \$295,000.

## How's This?

We offer One Hundred Dollars Reward for any case of Cataract that is cured by Hall's Cataract Cure. It has been taken by cases of the past thirty-five years, and has become known as a reliable remedy for Cataract. Hall's Cataract Cure acts on the blood, on the mucous membranes, expelling the poison from the body and healing the diseased portions.

It has taken away the Cataract Cure for a short time you will see an improvement in your general health. Start taking Hall's Cataract Cure and you will get rid of cataract. Send for testimonials free.

## Bible Readers and the War

Progress of Eastern Campaign of Great Interest to Students of the Scriptures

The war development in western Asia will revive knowledge of places that figured in some of the earliest history of the world. Airmen have been flying over the land of Beersheba, where Abraham ranked himself among the foresters by planting a tree, and whose people were later denounced by the prophet Amos. Near by is Hebron, where also, Abraham was a nomad, as was Isaac, his son, and Jacob who gave his name to a people. To the westward is Gaza a great city of the Philistines, which sold Hebrew slaves to Edom, and for a time held Samson as a prisoner, till, lifting the gates of the place from their fastenings, he went to the Philistines, cleaving them on the Mount Mount, before Hebron. The further progress of the campaign will be interesting to Bible as well as newspaper readers.

## Use the Soil

It is just as important under present conditions to have reserves of food as reserves of cartridges. When so much is dependent upon a good crop, the entire community should concern itself about the soil from the beginning of the season. There are certain common vegetables comprising a large part of the food supply, such as potatoes, beans, onions, etc., which do well in all parts of the country. They can be grown in a small way without much difficulty, and their production this year in large quantities should be assured beyond chance or doubt.

## Would Help Some

When Great Britain fixes prices for food it is a fixed price. The controller of food fixed the price of potatoes at three cents a pound. Certain tradesmen charged four cents a pound for potatoes and were promptly fined. A little of this sort of law would be popular in Canada.—Montreal Star.

## CURE COWS' CAKED BAGS

For Sale by all Dealers  
Douglas & Company, Naperville, Ont.

La Follette Folly

Representative, La Follette, of Wisconsin, has proposed that Great Britain sell Canada to the United States for \$10,000,000,000. If the Katzenjammer Kids are interested for the duration of the war the La Follette comedians can acceptably take their place.—Toronto Mail and Empire.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Cure.

## Battle of the Peoples

This war is neither a Mary Pickford's "Twelve", nor a Harold Bell Wright novel. It is a battle of the peoples against an unscrupulous and brutal Machiavellianism. It is a test of the brain power of freedom.—New York Tribune.

## NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often insanitary buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

It is a well-known fact of taking purgatives in the spring is useless, for the system really needs strengthening, while purgatives only gall the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that will strengthen nerves, and then cure the various forms of nervous disorders. They care also such other forms of spring troubles as the result of indoor life, in poorly ventilated and often insanitary buildings.

Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

It is a well-known fact of taking purgatives in the spring is useless, for the system really needs strengthening, while purgatives only gall the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that will strengthen nerves, and then cure the various forms of nervous disorders. They care also such other forms of spring troubles as the result of indoor life, in poorly ventilated and often insanitary buildings.

**For Regenerated Belgium**  
Plans to Build Railroads Like Those of This Continent

Regenerated Belgium will model some of her important railway lines on the American plan. Railway capitalists of that outraged nation have sent an agent to America to study railroad operating methods, railway shops, and, more especially, the important electric installations on trunk lines and in the port cities. The name of the Belgian agent is Joseph Cartier. He is Assistant Professor of Railways at the University of Liege. Professor Cartier said he believed that at least \$200,000,000 would be spent to place the railways of Belgium on a proper footing after the war, and that the United States would doubtless be called upon to supply a large part of the new equipment.

Mr. Cartier is also a member of the special commission which was installed in Paris last fall, the members having been appointed by the Belgian minister, for the study of electrification of the Belgian railroads.

"We have approximately 8,000,000 people and a little over 3,000 miles of broad gauge, and about 4,500 miles of single-track railroad. We have also a system of narrow gauge railroads, totaling something like 1,500 miles of small freight traffic. Our freight stations are usually long and very large. I think we should adopt many of your ideas as to car building. I think we shall have to make compartment cars for the most part. Belgium is a windy country, and we cannot very well have a long, one-car car such as you have in America, because it would be much too draughty."

**CANADIAN SOLDIER'S LETTER**

Says Dr. Cassell's Tablets Have kept him Fit through Two Wars

Sapper A. Hartley of the A Company, Canadian Engineers, whose home address is 906, Trafalgar-street, London, Ontario, is one of the many who have written in praise of Dr. Cassell's Tablets. He says: "As a consequence of Dr. Cassell's Tablets, I would like to add my hearty endorsement. I used them when I was in the South African War, and, finding the benefit of them there, I have used them ever since. I have, of course, always recommended them, for I know that they do all that is claimed for them. In fact, I have found them to be the best tablets I can take for loss of appetite, pangs of the blood, or general weakness of the system."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of a post card addressed and postage paid. Address: Harold B. Ritchie & Co., Ltd., 10, M'Caill-st., Toronto.

Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble, Sleeplessness, Neuralgia, Rheumatism, Sciatica, Paralysis, Palpitation and Weakness in Children, especially for nursing mothers during the critical period of life. Sold by druggists and stores throughout Canada. Price: One tube, 30; six tubes for the price of five. Beware of imitations sold to consumers. The original and only genuine Dr. Cassell's Tablets is known only to the proprietors, and no imitation can ever be the same. Sole Proprietors: Dr. Cassell's Co., Ltd., Manchester, England.

**The Armies of Labor.**

Influence That Will Attract Soldiers to Farming

Love of life in the open is fostered by service on the field of battle, and this influence will attract many of the fighters of Europe to farming and the restoration of ravaged lands. The military experience will have increased the manual skill and technical efficiency of the throngs of soldiers. Modern agencies for the distribution of labor are more numerous and scientific than they were a century ago, a generation ago. We shall see the soldiers of Europe melting back into the armies of labor as did Cromwell's Ironsides in 1660, when it was said to some specially efficient and industrious soldier that he was quite sure to have been "one of Oliver's men."—Spokane Spokesman-Review.

**Help Belgian Children**

Secure His Interest in the Side of the Farm Work

Six per cent. of the 400 farmers who were visited in connection with an agricultural survey by the Commission of Conservation in Dundas county in 1916, were paying members of the family who remained at home to work on the farm. No farmer was found who had taken the members of the family into active and actual partnership in the farm enterprise.

It is essential that many of our best boys remain on the farm and help in developing rural life into what it could and should be. Some of our farm boys may be better suited for participation in other than farming, but because they are suited for farming and wish to do so should be given encouragement to do so.

Boys on the farm are too often allowed to drift along with very little attention being paid to them. The boy will be more likely to become a willing worker and a good citizen if he is brought in the business side of his work and he will gain ability to save if he is taught to spend thoughtfully and wisely. These two factors, willingness to work and ability to save, are fundamental for future success. Permit the boy to participate in the practical business of the farm as far as he can, as the conditions allow. Let him do some of the buying and selling. When he has decided that he will be a farmer, the father may be gradually relieved from some of his responsibility through a partnership management.—F.C.N., in Conservation.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

The quiet wedding may be the calm before the storm.

Sometimes a genius fools people by wearing good clothes.

**Milner's Liniment used by Physicians**

Milner's Worm Powders act mildly and without injury to the child and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numberless cases and have given relief to thousands of children, who, but for the good offices of this superior compound, would have continued weak and enfeebled.

**George, after I'm gone, do you think you'll mind me again?**

"I may," said George gloomily, "if the trap is set different."—Dallas News.

**Might Be Fooled**

"That answer was a setback," said John G. Johnson, the lawyer, discussing a case in Washington.

"It was like the answer of the man whose dying wife looked into his eyes and said:

"George, after I'm gone, do you

think you'll mind me again?"—Dallas News.

A law to prevent "dumping" after the war is being drafted in Japan.

**A Just Tribute**

The New York World would have the United States make a gift of \$1,000,000,000 to France, as a proof of affection and appreciation of the aid given the colonies at the American revolution in 1776. It would be only a just tribute, according to a recent statement, that they received \$700,000,000 from France at that period, of which neither the principal nor the interest thereon was ever asked for or returned.—Hamilton Spectator.

## BABY'S OWN TABLETS CURE CONSTIPATION

Childhood constipation can be promptly cured by Baby's Own Tablets. These Tablets never fail to regulate the bowels and stomach thus curing constipation, colic, indigestion and the many other minor ills of the young. Concerning the tablets, Mrs. Louis Nicole St. Paul du Bouton, Gue, writes: "My baby suffered from constipation but thanks to Baby's Own Tablets he is a fine healthy boy today. It gives me much pleasure in recommending the Tablets to other mothers." The tablets are sold by mail at 25 cents a box from The Dr. Williams' Medicine Co., Blockville, Ont.

**American Regret**

Americans will feel a certain envy in the thought that Canada has outdistanced us in reaching the battle line, which is the front of our civilization.—New York Tribune.

**Minard's Liniment used by Physicians**

"Biggins attaches a great deal of importance to his opinions."

"You can't blame him," replied Miss Cayenne. "An opinion costs him so much intellectual effort that he feels like making a pet of it."

**An Oil for All Men**—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury by the elements will find in Dr. Thomas Minard's Oil a complete and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it has no equal. Therefore, it should have a place in all home medicines and those taken on a journey.

"Some of our greatest sacrifices bring us great grief."

"That's right," replied Senator Sargent. "When I suppress my natural inclination to arise and waste time in speechmaking nobody ever takes me by the hand and congratulates me."—Washington Star.

**A Patriot**

"What is your opinion of a patriot?"

"Well, my opinion is that a patriot is a man who actually serves the flag that others cheer for."—Detroit Free Press.

## PREMIER SIFTON AT MONITOR

Fully two hundred people attended the meeting in the Town Hall on Monday night. The Brass Band was at the station when the Premier arrived, and they also played several selections before the meeting opened. One pleasing feature of the gathering was the large number of ladies present.

H. S. Northwood was the first speaker, and he pledged himself to work for the best interests of the people of this constituency, if he was elected on the 7th of June. He stated that he was in favor of a progressive road policy and the best legislation for the benefit of the farmer.

Mrs. A. A. Towns, Coronation, spoke at some length on the Acts recently passed, at Edmonton, which were of great benefit to the women of Alberta.

Mrs. Towns cited the Liquor Act, The Dower Act, The Equal Suffrage Bill, and other Acts having to do with the affairs of the women. She urged all the women to vote for the Sifton Government.

When Premier Sifton arose to speak he was given a fine reception. After giving an outline of the Legislation passed at the last Session, he reviewed the progress of the Province from the time he took office, in 1910 up to the present time.

He quoted many figures on the rapid expansion of the railways and the telephone system and said that it was his aim to

have the telephone installed in every farm home in Alberta.

The Government was appealing to the people for re-election on their record during their seven years in office. No one had any questions to ask the speakers. The meeting closed with the singing of the National Anthem. W. S. McCulloch acted as Chairman.

Consort, Kirriemuir and Bideford were well represented.

Ivan Fletcher was a visitor in town during the week.

T. H. Nond spent a few days in Edmonton, recently.

Vote for W. W. Wilson

The funeral of the late Mrs. J. S. Johnson was held on Saturday, May 26th, at Butte Cemetery, Rev. H. T. Egedahl officiating.

Mr. Johnson and family wish to thank all those who so kindly help in the time of their bereavement, and especially the members of the Lutheran Ladies Aid

Be sure and cast your ballot next Thursday, June 7th.

Birth—On Monday, May 28th to Mr. and Mrs. J. Hamer, a daughter.
